

Ninth Avenue Extension Was Halted Monday

Since Hon. Mr. Jones, minister of finance at Victoria, has been in Ottawa consulting with the Dominion government on relief funds, word has been received at Victoria to cut out all unnecessary work, and to cut down the number of employed to those who are actually in need. It seems that a lot of men have been given work who do not come under the head of those actually in need.

Throughout the province work has been curtailed, and some of the unnecessary work has been shut down, and under this head was placed the extension of Ninth Ave. in New Hazelton.

For a little better than a week quite a number of local men found work on the Ninth Ave. extension and it was very convenient for them as they were able to be at home at night.

There is nothing in the new order of things to indicate that those same men who may be in need will not find a job awaiting them in another camp.

The Dominion government has discovered that advantage of the program for relief was being taken in some places. All provinces have been cut, and it is probable that B. C. will get only about half of what was asked (including the P.G.E.). So far as the extension and improvement of the transprovincial and trans-Canada highways are concerned, the work will be continued as outlined, but side roads etc., will be cut off.

It is understood that work has also been stopped on the road from Smithers to Babine.

ADVISORY BOARD POSTPONED

The annual meeting of the Advisory Board of the Farmers Institute in Victoria will not be held this year. The department of agriculture has decided that owing to present conditions and the expense involved the meeting must be postponed until another season. The institutes generally have concurred in the decision as a saving in expense and also their time in travelling from distant parts of the province.

BREEDING STOCK COMING

One hundred and seventy-nine head of Hereford and Shorthorn breeding heifers have been ordered by farmers throughout Central British Columbia under the Dominion Government free freight policy. The agricultural department of the C. N. Railways, Prince George, is co-operating with the Central Interior newspapers and the Provincial government in making these policies known and will supply any information regarding the shipping of live stock under this or other Dominion Government policies.

UNEMPLOYMENT REGISTRATION IS LIMITED

The registration of unemployed in British Columbia is now being confined to bona fide residents of the province, who have resided here since January 1, 1931. No relief and no relief work of any description will be given henceforward to applicants not registered. This decree of the Provincial Government has been made for the purpose of warning transients from the prairies against coming to B. C. in the hope of securing relief or work at the public expense.

HALLOWEEN DANCE A SUCCESS

Many Fine Costumes and a Good big Crowd was Present

The ladies of the W. A. to the H.H. scored quite a success with the masquerade dance given last Friday evening. There was a very good attendance, in fact when conditions are considered, there was a big attendance. The costumes were for the most part exceedingly good and some of the characters were well represented. There were hardly enough prizes to go round and some very deserving characters had to be left until next year. The judges were Dr. H. C. Winch and Mrs. Walton Sharpe. The prize winners were:

Ladies—Best dressed, old English, Mrs. Dugate; Best original, cigarette girl, Miss Vivian Chappell; best home made, Victorian, Mrs. H. C. Winch; best comic, old Dutch, Mrs. Braicevell.

Men—best dressed, old English, J. Adams; best original, Arab Sheikh, R. Hunter; best homemade, K.K.K., Mr. Gregory; best comic, clown, Gordon Williamson.

NEW MINE AT CEDARVALE

Cedarvale people are holding out great hopes for the development of the new property on Porcupine creek. This property, held by Walter Moberley and associates is situated $\frac{3}{4}$ mile from the railway, and is at an elevation of 500 feet. Work has been carried fifteen feet from the surface, and a wall of ore 24 feet across has been uncovered. The ore has been assayed and shows 80% zinc, 15% lead, 3% silver with a little copper and small amount of gold. This week placer gold was found on the ground and there is every chance of a good mining property being developed at this point.

The Ladies Guild of Knox United Church held their Halloween tea and sale of home cooking. In spite of heavy rain results were fully up to expectations, all goods offered being sold.

Cedervale Notes

The old timers are now being reminded of construction days by the stump blasting which is being accomplished by the public works road gang.

E. L. Perrin was a business visitor here about the middle of the week.

J. Thompson returned on Tuesday after visiting in England for the past six months.

W. C. Little of Woodcock paid a visit to Cedarvale last Friday.

A hard times Halloween bonfire party was held on Friday evening on the south side of the river. The weather was favorable and about seventy were present. Mrs. Wiggins, Mrs. Sutton, Mrs. Cadwallader and Mrs. Tomlinson prepared the refreshments. T. R. Tomlinson and A. S. Tordiffe kept the fire blazing. Guests of honor were the men from the road camp. Community singing was lead by Miss D. M. Thompson. There were a number present in Halloween costume. A most enjoyable evening was spent.

USE REGISTERED MALE BIRDS

Good breeding practice in poultry has long recognized the value of the highly prepotent male bird in building up flock production. When the farmer or poultry man can raise the average production of the pullet flock from 120 to 150 or 160 eggs per bird in a flock of 100 birds the real cash value of the high quality male bird is immediately apparent. In the whole scheme of the National Poultry Policy the Registered cockerel alone has the proven ability best suited to increasing pullet production. These cockerels are bred from two direct lines of females which have laid 200 eggs or more in one of the Canadian egg-laying contests. In addition to volume these dams have proven capacity for egg size as well. And what is more important these cockerels have been bred from a fully matured hen. They

OLDEST FORAGE PLANT

While alfalfa is one of the oldest forage plants there is at present no plant known which can compete with it in nutritive value and general importance for feeding. It is relished by all kinds of stock which eat it and alfalfa exceeds even red clover in nutritive value and protein content. The feeding value of alfalfa was recognized in Persia long before the Christian era, and it was highly esteemed by the Arabs. It is believed to originate in Asia, probably in the south-western parts; certainly it has been grown in Persia from time immemorial, and is perhaps the oldest forage plant in the world. It was brought into Greece about 500 B.C., and from there spread to Italy. It came to western Europe by way of Northern Africa, the Arab carrying it into Spain in the seventh century and from there it found its way into France. It was introduced into Mexico by the Spaniards whence it spread to the United States and into South America. English and other colonists introduced it in the eastern parts of North America. Its popularity as a fodder crop is justly earned and its use is rapidly expanding in all parts of Canada.

Douglas Lay returned to the district last week after a trip into the Cariboo country where placer mining is being carried on somewhat extensively and the district mining engineer says that the operations have been worth while. As to the future of other metals he admitted that he was somewhat in the dark. At present the outlook was any thing but bright, but one never can tell about the mining industry. Speaking of mining prospects in the local district Mr. Lay said that the Columaria at Usk had by far the best prospect. It was close to the railway, a great deal of development had already been done. The property had been thoroughly examined and sampled by highly qualified men. They had re-

are the cream of production bred poultry.

B.C. Coal Equal To Any Other Is Cheap Fuel

British Columbia produces a coal for every purpose.

Coal is the safest and most efficient fuel if used in the modern way.

These and many other facts regarding British Columbia coal are elaborated in a comprehensive bulletin entitled "Some Facts about British Columbia Coal," issued by Hon. W. A. McKenzie as chairman of the British Columbia coal commission.

This committee was formed as outgrowth of the coal conference held by Mr. McKenzie in August, 1930. It has on its personnel representatives of the producers, consumers and the provincial government. Its major object is the furthering in every way the use of British Columbia coal as against imported fuels.

The bulletin contains tables of analyses of average British Columbia coals from the different fields, and summarized information regarding the different coals. Competition from Alberta coal is considered and it is clearly shown that there are British Columbia coals available of higher grade than the competing Alberta coal. In general, British Columbia coals average somewhat lower in price than the Alberta coals.

An interesting section of the bulletin deals with the question of the use of furnace fuel-oil in domestic houses, apartment blocks and office buildings. It is explained that contrary to many opinions that this grade of oil as used in heating plants is high-priced fuel everywhere in British Columbia, even in Vancouver such fuel costs 7 cts. a gallon, or \$2.45 a barrel. To compete in price with coal this oil could only sell at 5.2 cts. a gallon.

commended building a mill at the railway track with an aerial tram connection with the mine. The ore carries good gold values. It is understood the company is now endeavoring to raise the necessary finances.

"Pack up Your Troubles — and Smile! Smile!! Smile!!!"

The famous war-time marching chorus might well have served as the theme-song for the events in connection with McGill University's 1931 Convocation, as can be seen from the faces in the above group, which includes four distinguished Canadians granted honorary degrees at the great gathering in Montreal. E. W. Beatty, K.C., Chairman and President of the Canadian Pacific Railway and Chancellor of McGill, (third from right), seems to be the ringleader in the cheerfulness movement. It would be difficult to find a group more typical of Canadian affairs; and just look how that infectious smile has done its work! Left to right: F. W. McLennan, eminent Canadian mining engineer; A. C. Rutherford, Chancellor of the University of Alberta; Rt. Hon. R. B. Bennett, Prime Minister of Canada; Mr. Beatty; Dr. Harvey Smith and Sir Arthur Currie, President of McGill University. The lower picture shows Mr. Bennett and Mr. Beatty, about to leave Sir Arthur Currie's house for the Campus, in a carriage drawn by a team of students. Note the "No Parking" sign, adopted by the "state coachman" as his staff of office. It was a memorable day. Everyone smiled—even the Weather Man!

FOREMAN'S SILLY REMARK

After working for a week on the extension of Ninth Ave., New Hazelton, and a diversion of the main highway from a point between the eight and nine mile posts, the work was closed down on Monday at noon. Foreman Wm. Larmer informed the men as he laid them off that the editor of this paper and another man were to be thanked for the stopping of the work and they (the men) finding themselves out of a job.

A statement more silly can hardly be conceived, and it comes with very bad grace from a foreman on a relief job who himself is far from needing relief.

If the editor of this paper had influence enough to stop a job that the government had undertaken and had been approved, the editor would certainly use that influence in a manner other than depriving family men of honest work.

ALL NEED PULL TOGETHER

All relief work in British Columbia was suspended on Monday or Tuesday of this week pending a reorganization of the program and of the forces.

This action was due to the decision of the Dominion Government. In all

provinces a cut has been made in the original programs.

Premier Bennett has first hand information at all times of financial and industrial conditions in Canada. He also has up-to-the-minute information as to what the provinces and municipalities throughout the Dominion are doing and how the work is being done.

Financial and industrial conditions in Canada have wonderfully improved in recent weeks and months. The recent rise in the price of wheat has added an additional fifty million dollars to the wealth of western Canada. Manufacturers throughout the country are enjoying a good measure of prosperity. Farming communities are getting rid of the surplus products and in many ways conditions are improving, so that the Premier feels a lack of necessity of spending as much on relief work as it was once thought would be necessary.

British Columbia will have about three and a half million dollars to do road work with, and if that is well handled a lot of road work can be done.

While eastern, midwest, and Vancouver will feel the better times much more quickly than will the northern interior of this province a good share of the road money should still be put into this north country. It will be another year before we feel the measure of prosperity the east and south are now feeling. The local members and local organizations should unite in urging the government at Victoria to continue the work on the main highway as provided for.

Premier R. B. Bennett lost no time after the Old Country election returns were known, in sending an invitation to the new government for an economic

conference to be held in Ottawa at the earliest possible moment.

It appears that Hon. J. W. Jones at Ottawa has satisfied the Dominion Government that the Provincial Governments road program is not unreasonable. The P. G. E., however, may not be sanctioned at this time.

So long as the people do not abuse the program of relief work planned in B. C. there will not likely be any trouble. But the work being done is distinctly relief work and intended on for those who are in need.

Every day the mild weather continues now will shorten up the winter just that much. A lot of rain has fallen this fall, but the country needs it and can stand more. Any day there may be a cold snap which will make the new comers think it is cold. That will pass off in a couple of days and it will probably be nice and mild until the Christmas season.

B. C. SEED IS POPULAR NOW

The provincial crop of timothy seed this year is estimated at 125 tons. This amount 70 tons have already been purchased by one house and the balance is being negotiated for. Reports from the interior indicate that the crop of alfalfa seed will be sold out by the time the farmers have completed the threshing and cleaning. There is also a market for all silage clover seed. The Dominion and Provincial governments have shared equally in supplying the growers with cleaning machinery, which has contributed toward this success.

The Omineca Herald is \$2.00 a year

RELIEF FOR CHINESE WANTED

With four million homes destroyed and over twenty-three million people rendered homeless and destitute, the Chinese Red Cross has appealed to Red Cross Societies throughout the world for assistance in the necessary relief measures. Is the announcement made by Dr. J. L. Bigger, National Cross Society.

The Canadian Red Cross Society will gladly accept any contributions from Canadians for the relief of the homeless and starving millions. The work of relief is being carried on by the Chinese Red Cross in co-operation with the Relief Commission appointed by the Chinese government.

Contributions marked "Chinese Relief" may be sent either to the National Red Cross Office, 410 Sherbourne Street, Toronto, or 817 Belmont H. Victoria, B. C. the provincial office of the society.

The consumption of apples has been very materially increased this year, due partly to the lower prices, and partly due to the fact that bulk apples can be secured for family use.

Recently the Hazelton Hospital received several bales of supplies from the Vancouver presbyteries connected with the United Church of Canada. These supplies are very useful to the hospital and are greatly appreciated.

A meeting of the W. A. to the H. H. was held at the home of Mrs. Wm. Grant in Hazelton on Tuesday afternoon.

Dr. and Mrs. H. C. Wrench will go to Prince Rupert Thursday morning for a few days.

Doubling Retail Business In Five Years

An
Advertisement
Addressed to

To double a retail business
in five years, add 15 per cent.
to the sales of the preceeding
year. At the end of 5 years
sales will be double their pre-
sent amount.

Our
Local
Retailers

Increasing one's sales to the extent of fifteen per cent. per annum can be accomplished in two main ways. Thus:—

1. Increase the amount of each sales transaction by an average of 15 per cent. (Note this is not the same as raising your prices 15 per cent. To do that would be fatal, even if possible.)
2. Increase the number of customers served daily to the extent of 15 per cent.

Good salesmanship will enable a retailer to raise the level of his average sales transaction—with advantage to both his customer and himself. Thus, a well informed buyer will readily pay 20 cents or 25 cents more

for a pair of gloves or stockings, or shoes, or for a piece of enamelware, if the better value of the higher priced article is well presented.

But the better way of raising sales to the extent of 15 per cent. is to increase the number of your customers. Customer increase comes from (1) satisfactory service (2) satisfactory goods and prices (3) good window displays, and (4) good advertisements in this newspaper.

Men and women buyers always want to be informed, in their homes through newspaper advertisements, about things which they plan to buy; and they are responsive to retailers' invitations. Also, they like to see the advertisements of those retailers whose customers they are.

A silent merchant can hardly hope to increase his business; and it is pretty certain he will not double it in five years.

Terrace Notes

O. Landry, superintendent of government telegraphs was a visitor this week, making a periodical inspection of local services.

Miss Fany McLaren, R.N., left Thursday for Prince Rupert.

W. Strachan of the fisheries department was here this week. It is understood work will be carried out towards the end of the year, clearing out some of the creeks tributary to Kalum Lake

O. Edlund of Prince Rupert is staying in the district for a few days on work connected with the government telegraphs.

John Browning, inspector of beer parlors spent a few days in town.

Staff Sargent McNeill arrived Wednesday to take charge of the enquiry in connection with the fire at Chas. Cauthers home last week when his wife and baby were burned to death.

Dean J. B. Gibson who conducted the funeral services of Mrs. C. Cauthers and Ronald Cauthers, returned to Prince Rupert on Friday.

Liquor Control Board Inspector E. T. Hal paid a visit to Terrace recently.

Nat Champoux, mine foreman, Atlin is registered at the Philbert.

Miss Eyvonne Cote left Saturday afternoon for Cedarvale where she will visit with friends.

Mrs. R. B. Durrant and daughter returned from Prince Rupert on Saturday last.

R. W. Riley is Home After a Trip to Ontario

R. W. Riley, proprietor of the Terrace Drug Store, returned to Terrace on Thursday last after spending several weeks in Ontario. While in the east he spent some time with his father at the old home in Dunnville, his first trip home after 21 years. He says he saw many changes in the old town and the changes were all for the better.

As he was at Toronto at the time of the Canadian National Exhibition he had a splendid chance to size up the advancement made in rural development. He found the fair wonderful. Checking up on the Toronto live stock quotations he found grounds for wonder in the almost total absence of offspring in the prime beef classes.

Coming as he does from an area that in years past specialized on the finishing of stockers, an area in which the shorthorn predominated, his curiosity prompted him to seek the reason. He found a number of relatives and friends who had replaced their shorthorn herds for Holstein and had gone into the dairy business, owing to the regular income coming from that industry.

He said he was much impressed by the green lawns and gardens around many of the farm homes, and the almost universal use of autos by farmers. The farmers all claimed to be short of cash, but this, in his opinion, was due more to the higher standards of living prevailing than to lack of produce and markets. He instanced one farmer living four miles from town who owned a car, that in four years had piled up a mileage of 25,000.

In the Dunnville section he found numerous areas devoted exclusively to growing produce for canneries. In many cases the return to the farmer from this branch of his operations equalled the total income from the same farm in years past.

Speaking of unemployment Mr. Riley said a large number of men had been sent out to camps to handle highway construction. Some firms had instituted a five day week to spread the payroll over a larger number of folk.

While in the east Mr. Riley also attended the annual convention of the Native Sons of Canada. He expressed his pleasure at being home once more. He had found the roar and bustle of traffic in the large centres somewhat trying and it was pleasant to return to the simple mode of life as practiced in Central B. C.

DEATH DUE TO SUFFICATION

The inquest into the death of Mrs. Chas. Cauthers and her infant son, victims of the burning of their home on Tuesday of last week was held at 7 p. m. on Wednesday. Staff Sargt. McNeill of the provincial police was up from Rupert to conduct the enquiry. Evidence produced showed that the fire originated at about 9 a.m. on the Tuesday, and it is supposed caught the victims while asleep. It was proven that every effort was made to get into the house to rescue the two victims, but all efforts were futile. A verdict of accidental death from suffocation was brought in by the coroners jury. The jurors were—B. J. Agar, foreman; Geo. Little, G. Temple, R. Christy, J. Smith and W. A. Kirkpatrick.

Mr. Durrant has rented the Raven house for the winter.

E. Parlow, district forester, was in town a couple of days.

Inquest Held at Terrace Death Was Accident

According to the evidence produced at the inquest of Mrs. Charlotte Lee Cauthers and Ronald Jones Cauthers it was evident that the disaster had caught mother and child unawares.

G. Tagan was the first person to see things were wrong at the Cauthers home, when, while at breakfast she saw smoke coming from the roof of the Cauthers house. She ran across and pounded on the front door and called several times. Failing to get an answer she broke the bedroom window, severely cutting her right hand in the act, and again called without receiving any answer. Thoroughly alarmed she ran to the home of her parents, Mr. and Mrs. C. Wilkinson. Mr. Wilkinson attempted to enter by the back door, only to be driven back by the flames. Mrs. Fagan then went to the mill to get Mr. Cauthers. Cautions at the mill were suspended, the entire crew proceeding to the fire to render assistance. Mr. Cauthers attempted to enter by the back door but the flames forced him back, and he then tried to cut his way into the bedroom. Other helpers discharged fire extinguishers into the bedroom through the broken window but these only served to temporarily check the flames. It was soon apparent that the fire had too strong a hold to permit anything being done. By 11 a.m. the house was completely consumed, and as the embers burned away the bodies of the two victims were found.

Acting constable A. Creelman had wired the provincial police at Prince Rupert, and Coroner W. Robinson who was on his way to Usk from Cedarvale. On the arrival of the coroner at noon steps were taken to recover the remains, these being removed to the Legion hall during the afternoon. The house was insured for \$300 and the contents for \$300. The house had of Prince Rupert officiating.

The funeral was held on Thursday afternoon at 2 o'clock. Rev. Dean Gibson of Prince Rupert officiating.

Floral tributes were paid by Mr. and Mrs. F. Page, Mr. and Mrs. A. Attree and family, F. C. Bishop and family, Mr. and Mrs. Bissonette Rev. P. Champagne, Mr. and Mrs. Sparke and Jack, A. McGillivray, Mr. and Mrs. C. H. Thomas and family, Mr. and Mrs. W. F. Ungerer, The Anglican W. A. Mrs. Raven, sr., Mr. and Mrs. R. W. Riley, Yvonne Cote, Gladys and Slim Jordan, Terrace Assembly No. 15, Native Sons, Marguerite Crotier, Mr. and Mrs. J. B. Agar and family, Carmen Smith, Mr. and Mrs. H. Cote, Mrs. A. J. Kirkaldy, Mr. and Mrs. S. Kirkaldy, Vivian Dix, Mr. and Mrs. E. T. Kenney and family, Mr. and Mrs. I. Swain, Mr. and Mrs. Hamer and family, Mr. Halliwell, (on behalf of the Child Welfare Movement of the V men's Institute), Lakelse Lodge I. O. O. F., Mr. and Mrs. H. M. Willson at the Loyal Orange Lodge.

NEW CLERGYMAN ARRIVED

Canon E. A. McKim, accompanied by Mrs. McKim and their three children arrived on Saturday afternoon from North Vancouver. Canon McKim will be in charge of the work at St. Matthews church here, succeeding Rev. E. A. McCarthy who was recently transferred to Atlin. Canon McKim officiated at the Sunday morning service, giving a splendid sermon on St. Paul and his works. Holy Communion was also celebrated Sunday morning.

CARD OF THANKS

Mr. Charles Cauthers and Mr. and Mrs. Wilkinson and family wish to express their deep appreciation to the people of Terrace who worked so strenuously at the time of the fire, and for kindness shown and for expressions of sympathy so generously extended to them in their recent sad double bereavement, and for floral tribute.

Wednesday, November 11th

Admission 50c; children 25c.

The Town Hall

James Drysdale, father of Mrs. R. Tomlinson of Hazelton, passed away at Winnipeg on Friday morning last. The funeral was held on Sunday, and Mrs. Tomlinson is expected home this week. The deceased was about 66 years of age and is survived by a widow, two sons and two daughters. The many friends of Mrs. Tomlinson will extend sympathy to her in her bereavement.

Mrs. Norman Redman returned to her home in Anyox last Sunday after having spent several weeks with Rev. and Mrs. Redman in Hazelton.

Mrs. W. W. Anderson of Hazelton has been under the weather for a few days.

Some wheat is being hauled over the C. N. for Prince Rupert elevator.

Short Stories

Close to Home

An important extension of popular interest in the Junior Farm Club council and its work is marked by the announcement from A. E. McLaurin, general secretary, that Eastern Dairies, Ltd., and the Industrial development council of Canadian Meat Packers have taken out membership in the Canadian Council of Boys and Girls work.

FOR SALE—White Leghorn Pullets, Well developed, 80c each. I have too many. Apply to J. Spitzle at Carnaby, B. C.

Hallowe'en passed off very quietly around New Hazelton this year. The damage to property so prevalent for a year or two was minus this year. On Friday afternoon the junior school had a party and concert at which many of the parents were present. In the evening the Trail Rangers had a social evening in the church. Adults went to the dance in Hazelton. On Saturday evening the young people had a surprise party at Mr. and Mrs. Wm. Greens.

Every week read Sherriffs' Cash & Carry adv. There is always some new bargains for you. These bargains are real, and the quality of the goods is the highest. No cheap stuff handed out to you.

Quite a number are now planing on attending the Golf Club dance in Hazelton next Monday night.

Keep in mind the concert in the New Hazelton hall on Wednesday of next week. It is under the auspices of the Ladies Aid. The program promises to be good.

Traffic on the Porphyry Creek hill has not been the smoothest for the last few days. The road is being widened and the grade reduced. The foundation of the old road has been disturbed and as there are a number of small springs in the hill the road has been soft and most cars have needed assistance to get up. In a few days that will be overcome. There is a lot of good gravel and surface material close at hand. In a short time that hill will no longer be one of the difficult spots on the main road.

Miss Parfitt of Victoria, formerly a teacher in Hazelton, is spending a holiday with friends there.

School Inspector Hall of Prince Rupert spent the first half of the week in this immediate vicinity. This is the inspectors first visit since his appointment in succession to Inspector Fraser who was transferred to Victoria.

NOTICE—If the party who has a copy of a book "Twenty Years After" will kindly notify Mrs. G. D. Parent, it will be greatly appreciated.

Oranges, grapefruit and limes from Jamaica are arriving at Vancouver in quantities. There has also been a big shipment of Oriental bulbs and vegetables.

The consumption of apples has been very materially increased this year, due partly to the lower prices, and partly due to the fact that bulk apples can be secured for family use.

Recently the Hazelton Hospital received several bales of supplies from the Vancouver presbyteries connected with the United Church of Canada. These supplies are very useful to the hospital and are greatly appreciated.

A meeting of the W. A. to the H. H. was held at the home of Mrs. Wm. Grant in Hazelton on Tuesday afternoon.

WATER NOTICE

(Diversion and Use)

Take Notice that Beatrice May Johnstone, whose address is Terrace, B. C., will apply for a license to take and use 15,000 gallons per day of water out of Lakelse Hot Spring, which flows westerly and drains into Lakelse Lake, B. C., about near the north-west corner of Lot 3983, Range 5. The water will be diverted from the stream at a point at about near the source of the Hot Spring on District Lot 684, Range 5, Coast District, and will be used for mineral trading purpose upon the land described as District Lot 4127, Range 5, Coast District. This notice was posted on the ground on the 7th day of October, 1931. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder, Prince Rupert, B. C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is October 14, 1931.

Beatrice May Johnstone
Applicant
15-18 J. Bruce Johnstone, Agent.

It appears that Hon. J. W. Jones at Ottawa has satisfied the Dominion Government that the Provincial Governments road program is not unreasonable. The P. G. E., however, may not be sanctioned at this time.

So long as the people do not abuse the program of relief work planned in B. C. there will not likely be any trouble. But the work being done is distinctly relief work and intended for those who are in need.
